Transfer system with Soft Start 6 kW

Product code: 55010600

MASTERVOLT
THE POWER TO BE INDEPENDENT

Mastervolt supplies three automatic switching systems for capacities of 6, 9 and 13 kW that - combined with an IVET transformer - adjust grid power to the onboard system. As a result, a 230 V/50 Hz system can easily function with an American or Caribbean AC connection. Do ensure that the frequency on board (50 or 60 Hz) is the same as the frequency of the incoming current.

The Soft Start automatic switch suppresses the inrush current from the isolation transformer to prevent the power fuse from blowing.

Specifications

General specifications

Max. input current	60 A at 120 V, 30 A at 230 V A
Voltage	120/230 V
Power	6000 W
Dimensions, hxwxd	400 x 300 x 210 mm 15.7 x 11.8 x 8.3 inch
Weight	12 kg 26.5 lb
