EasyCharge Portable 4.3A

Product code: 43510400

Waterproof portable battery charger

For people on the move, the EasyCharge portable battery charger offers a rugged solution that can be used on the boat, car, motorcycle, and camper van. With a rugged, ergonomic construction, and waterproof to IP65 standard, the portable charger has an intuitive control panel and a universal input (120-230 V) for total worldwide freedom.

Users can quickly select between 6 V (ideal for toys, classic cars and motorcycles) and 12 V operation. The unit includes 1.8m of DC cable that connects to either a 61cm lead with ring terminals, or a 61cm lead with alligator clips, for easy installation and a variety of applications; both leads are included in the package.
