

CZone 2 Module Smart Harness

Product code: 80-911-0171-00

CZone utilizes the industry standard NMEA 2000 network for its communication protocol.

The 2 Module Smart Harness replaces the need for a complete network backbone in a small system, meaning a robust, simpler and more cost-effective installation.

The Smart Harness can also be fitted independent to any CZone installation where a small network comprising 2 devices is required.

- All in one smart-harness for straight forward plug & play installation.
- 2 Module Smart Harness connects one 6-button Waterproof Keypad to the Contact 6 PLUS Module.
- Not required when connecting to NMEA 2000 network. The Smart Harness contains internal network terminations and will compromise a standard backbone.
