PowerCombi 12/1200-50

Product code: 36211200

Simple. Independent. Flexible.

Only available in the USA.

The PowerCombi is a pure sine wave inverter/charger offering grid quality AC power and battery charging in one low profile design. Designed to be an independent inverter / charger, it yet can easily be integrated into a MasterBus network (with additional interface).

With a built-in transfer switch, 2x surge for 3 seconds and on-site dipswitch programming—the PowerCombi offers simple installation with multiple operating modes, and can charge various battery chemistries—including a custom profile for use with Li-ion.

Full certifications make it perfect for use in RV's, boats, and specialty vehicles. Add a battery temperature sensor (BTS), remote display and a communication interface for custom applications.

Specifications

Specifications battery charger

Input voltage range	10 - 15.5
Nominal input voltage	12 V
Max. charge current at 25 °C / 77 °F	50 A DC

Specifications transfer system

Transfer speed

Communication & monitoring

Communication

MasterBus compatible via PowerCombi MasterBus Interface (part # 77032900)

General specifications

Flat battery support (minimum charging) Continuous power at 25 °C / 77 °F, cos phi 1 Continuous power at 50 °C / 122 °F, cos phi 1 Surge power (3s) AC voltage / frequency Idle consumption Dimensions, hxwxd

Weight

Compliance
